

PROGRESS REPORT 2018

CLIMATE ACTION

ALDI SÜD Group

2020

OVERVIEW

The ALDI SÜD Group has set the goal for each individual country to reduce greenhouse gas (GHG) emissions per m² of sales area by 30% by 2020. All percentage values listed in this document constitute comparisons against the base year 2012.

GHG EMISSIONS

In 2018, all ALDI SÜD country groups achieved the reduction goal in 2018 two years ahead of time.

* Relative GHG emissions per country [kg of CO_2e/m^2]
** Collectively, the national organisations in Austria, Switzerland, Slovenia, Hungary and Italy are referred to as Hofer S/E.

KEY FIGURES

2 years	advanced achievement of 2020 target	7 countries	climate-neutral 2018: AT, CH, DE, HU, SI 2019: UK, IE	89 percent	Group-wide share of green electricity	1,837 stores & RDCs	with solar-panels worldwide

EXTERNAL REVIEW

The values of our Company Carbon Footprint and the methodology used to calculate it were externally reviewed by an independent third party on the basis of the corresponding data for 2016. The next external review is scheduled for 2020 data.

OUTLOOK

Since the target has already been accomplished by all countries, a new climate strategy beyond 2020 will be developed based on criteria of the Science-Based Target initiative.
